

**De Witte**

De Witte S.A. was founded in 1989 and specializes in supplying quality products to distributors in automotive, food and industrial markets.

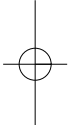

Several renowned manufacturers, such as Pro-Team (USA), Dosatron (FR) and Chapin Mfg (USA) have given us the rights to represent their product range.

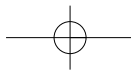

Apart from that, we have established partnerships with manufacturers all over the world, whose products comply with the highest quality standards and are tested extensively before they are put on the European market.

Our products are exported to more than 20 countries and are sold by local professional distributors who care about their clients and the quality of their products, e.g. in Belgium, the Netherlands, Luxemburg, France, Germany, Italy, Spain, the United Kingdom, Norway, etc.

Our distributors can count on:

- Top quality products
- Punctual deliveries from stock
- Keen prices with attractive profit margins
- An excellent after sales service and ... a motivated team, always attentive to its customers.

CH2634E Pro-Matic 3.8 l

CH2635E Pro-Matic 7.6 l

CH2636E Pro-Matic 11.4 l

CH2637E Resist 7.6 l

CH2637EP Resist Plus 7.6 l

## PRO-MATIC AND RESIST SPRAYER

Excellent resistance to aggressive and corrosive chemicals.

With Viton seals.

Trigger, lance and nozzle made of polyethylene.

Top quality pump with a high performance per stroke.

Ergonomic hand grip.

Nylon reinforced hose, extra long: 150 cm.

High density polyethylene tank.

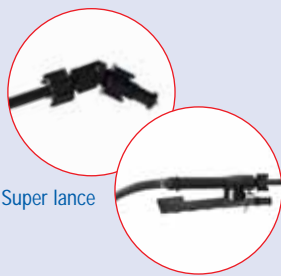

Safety valve.

With shoulder straps (except the 3.8 l model).

Adjustable nozzle.

## RESIST PLUS SPRAYER

The Resist Plus has the same features as the Promatic Sprayers, but is equipped with a Super Lance. This Super Lance offers even more resistance to strong acids and alkaline based products.

Super lance

**Free** extra multi-jet nozzle with 4 different jets:

- fanjet low flow
- fanjet high flow
- shower jet
- straight jet

## PREMIER SPRAYERS

Excellent resistance to aggressive and corrosive chemicals.

With Viton seals.

Trigger, lance and nozzle made of brass.

Top quality pump with a high performance per stroke.

Nylon reinforced hose, extra long: 150 cm.

High density polyethylene tank.

Safety valve.

With shoulder straps (except the 3.8 l model).

Adjustable nozzle.

Perfect for neutral cleaning agents, weak solvent and alkaline based products.

CH21210 Premier Sprayer 3.8 l

CH21220 Premier Sprayer 7.6 l

CH21230 Premier Sprayer 11.4 l

300.100.300 Aero-Spray 1000 ml

## AERO-SPRAY

Refillable spray can that replaces traditional aerosol sprays.

No CFC's, Freon or other potentially dangerous propellants. Uses only compressed air.

No aerosol disposal problems.

Pressurize with compressor or (foot) pump.

Working pressure: 6-10 bar

Applications: oils, cleaning products, degreasers, disinfectants, deodorizers, lubricants etc.

Aero-Spray 200 and 500 ml:

Supplied with 8 nozzles (2 x coarse, 2 x medium, 2 x regular, 2 x fine).

Aero-Spray 1000 ml:

Supplied with 2 nozzles (1 cone nozzle and 1 pin stream nozzle).

Not suitable for water based chemicals - only solvents.

# sprayers

450.800.600 Professional Sprayer 6 l

## PROFESSIONAL SPRAYERS

Tank in Stainless Steel. With Viton seals.

Pistol, Lance and nozzle made of brass.

Brass pump with high output per pump stroke With pressure-gauge.

Hose made of Reinforced Nylon.

With carrying strap.

Equipped with a pressure-relief valve.

Excellent resistance to solvents. Do not use for acids.

450.800.000 Professional Sprayer inox 10 l

211.100.100 Spray-Master 5 l

## SPRAY-MASTER

The professional's choice. Chemical resistant Viton seals.

Easy pump action for quick pressurizing (model 211.100.300 also has a compressed air connection)

2 nozzles supplied with every unit:

1 adjustable nozzle + 1 fanjet nozzle. With 2 comfortable shoulder straps.

Max. pressure: 6 bar. Perfect for solvent based products. Do not use for acids.

211.100.200 Spray-Master 10 l

211.100.300 Spray-Master 10 l CA

- ACCESSORIES:**
- "Dosi-Control" gun for constant working pressure (ref. 211.300.002)
  - Anti-drip valve (ref. 211.300.003).
  - Trolley (ref. 211.200.200)
  - Spiral hose 5 m (ref. 211.300.004)
  - Telescopic lance 2 x 1 m in brass (ref. 211.300.011)

(see page 8)

207.100.101 Spray-Matic 24 l

## SPRAY-MATIC STAINLESS STEEL

Pressurized with compressor.

Equipped with:

- Stainless Steel tank
- Trolley
- Snap-on air connection
- Manometer
- Product level indicator
- Safety valve
- 10 m spiral hose
- 75 cm Stainless Steel lance (for 24 l model) and 90 cm (for 50 and 100 l model)

Not suitable for strong acids.

Maximum pressure: 8 bar

Complies with European directive 97/23/CE.

## STANDARD KIT FOR BLACK & WHITE 15 L

Every Black & White backpack sprayer is supplied with a standard spare parts kit with the following parts :

1. Fan nozzle
2. Twin nozzle
3. Shower jet nozzle
4. Spare repair kit

Spare parts kit included with every Black & White 15 L

## TELESCOPIC LANCE 2 X 0.5 M FOR BLACK & WHITE 15 L

Can be easily fixed on to the Black & White backpack sprayers. Made of polyethylene. Total length : 1 m.

450.300.100 Telescopic lance 2 x 0.5 m for Black & White 15 L

## PROTECTION HOOD FOR BLACK & WHITE 15 L

For targeted spraying. Made of polyethylene.

450.400.200 Protection hood for Black & White 15 L

## BLACK & WHITE MOBILOX 12 L

With Viton seals.

Nozzle adjustable from mist to pin stream. With pressure-relief valve.

Mounted on a swivel cart.

You don't have to bend anymore to pump.

450.700.800 Black & White Mobilox 12 L

# Tex-Spray

**ASK FOR OUR SPECIAL NET PRICE FOR 560 TEX-SPRAY + 560 GRADUATED BOTTLES**

For the 600 ml bottles (with 17 cm tube)  
 605.100.100 Tex-Spray white/blue  
 605.100.200 Tex-Spray white/red  
 605.100.300 Tex-Spray white/green  
 605.100.400 Tex-Spray white/yellow  
 605.100.500 Tex-Spray white/white

For the 1000 ml bottles (with 25 cm tube)  
 605.400.100 Tex-Spray white/blue  
 605.400.200 Tex-Spray white/red  
 605.400.300 Tex-Spray white/green  
 605.400.400 Tex-Spray white/yellow  
 605.400.500 Tex-Spray white/white

Also works when you hold the bottle upside down.

### TEX-SPRAY

Excellent resistance to aggressive and corrosive chemicals.

Nozzle adjustable from mist to pin stream.

Accessories:

- Ref. 605.200.200: Foaming nozzle
- Ref. 901.200.100: graduated bottle 600 ml
- Ref. 901.200.100: 1000 ml bottle.

### 600 ML BOTTLE

Fits all Tex-Sprays (ref. 605.100.100, 605.100.200, 605.100.300, 605.100.400 and 605.100.500).

600 ml polyethylene bottle with graduations and good resistance to aggressive products.

901.200.100 600 ml bottle

**NEW**

605.500.100 Tex-Spray U.R.

### TEX-SPRAY U.R.

The ultra resistant Tex-Spray has the same characteristics as the ordinary Tex-Sprays and also works upside-down. But it's also super resistant to most of the aggressive acids bases and solvents. The absolute top in its category!

### 1000 ML BOTTLE

Good resistance to aggressive products.

Fits all Tex-Sprays with 25 cm tube (ref. 605.400.100, 605.400.200, 605.400.300, 605.400.400 and 605.400.500)

901.200.110: 1000 ml polyethylene bottle

- 605.600.100 Spray-Tube white/blue
- 605.600.200 Spray-Tube white/red
- 605.600.300 Spray-Tube white/green
- 605.600.400 Spray-Tube white/yellow

### SPRAY-TUBE

The Spray-Tube consists of a Tex-Spray spray nozzle, a 120 cm long flexible tube and a conical part that you have to put in the barrel opening. Used for spraying directly from a 5 or 10 l barrel.

### WHITE CAP WITH SEAL FOR THE 600 AND 1000 ML BOTTLES

Perfect for transporting, delivering or storing product in our 600 or 1000 ml bottles without risk of spilling, leaking or evaporation.

901.200.191 White cap with seal for PE bottles

**STARTING FROM 560 PCS WE PRINT YOUR LOGO AND COMPANY DETAILS ON OUR BOTTLES. MORE INFORMATION ON PAGE 26.**

## SPRAY-MATIC 1,5L

Professional hand sprayers fitted with different seals: Viton or EPDM. Nozzle adjustable from mist to pin stream. Lever can be locked for continuous spray or safety position. Filling content: 1,5 l. Total content : 2 l.

### Accessories:

Ref. 901.300.400: Foaming nozzle  
Ref. 901.300.500: Extension 20 cm

## SPRAY-MATIC 1L AND 1,6L

With chemical resistant Viton seals.

Pump made from reinforced polyamide: suitable for most solvents.

Hand pump + compressed air connection.

Very good resistance to chemicals (perfect for brake cleaner).

## CLEAN-BOY SPRAY

Dilutes the product automatically with water. Overdosing or wastage is impossible. Needs no electricity. Simply connects to a water source. Generates a coarse spray. To use the gun for rinsing with just water, simply disconnect the snap-on connector. Dilution is controlled by coloured metering tips of varying size.

## FOGGER

This workhorse controls flies and other insects, sanitizes and disinfects, applies carpet mildew controls, and neutralizes odours, including flood and fire damage restoration. 4500 m<sup>3</sup> can be disinfected with 5 litres of product. Capacity: 5 l Particle size: 20-60 microns Maximum range: 6 m Weight: 3.5 kg

205.100.100 Clean-Boy foam 2.8 l

### CLEAN-BOY FOAM 2.8 L

Perfect for applying cleaning products and disinfectants. Dilutes the product automatically with water. Overdosing or wastage is impossible. Easily connects to a water source. Needs no electricity. Generates a thick and rich foam for longer contact time.

To use the gun for rinsing with just water, simply disconnect the snap-on connector.

Dilution is controlled by coloured metering tips of varying size.

CH2637EM Resist 7.6 l foam

### RESIST FOAMER

With chemical resistant seals. Very good resistance to aggressive and corrosive chemicals. Solid container in polyethylene. Supplied with a special foaming nozzle. Generates a thick and rich foam for longer contact time. Perfect for foaming smaller surfaces.

stainless steel

207.200.101 Foam-Matic 24L

### FOAM-MATIC IN STAINLESS STEEL

Pressurized with compressor. Generates a thick and rich foam for longer contact.

Can be used as foaming units or spraying units, you only have to change the nozzle.

Supplied with both a foaming nozzle and a spraying nozzle.

stainless steel

207.200.103 Foam-Matic 50 L

Equipped with :

- Stainless Steel tank
- Trolley
- Mixing valve for air and product flow
- Pressure regulator
- Snap-on air connection
- Manometer
- Level indicator
- Safety valve
- 10 m hose
- Stainless steel spray lance 75 cm (for 24 l model) or 90 cm (for 50 and 100 l model).
- Spraying nozzle and foaming nozzle

Not suitable for strong acids.

Maximum pressure: 8 bar  
Corresponds to European directive 97/23/CE.

stainless steel

210.200.105 Foam-Matic 100 L

### FOAM-MATIC IN PAINTED STEEL

Has the same features as the Foam-Matic in Stainless Steel, but with a painted steel tank instead of a Stainless Steel one.

Foamers produce a thick and rich foam.

Configuration can be supplied for each  
Dosatron from the 1.5 m<sup>3</sup>, 2.5 m<sup>3</sup>  
and 3 m<sup>3</sup> range.

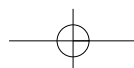

Consists of :

- Solid synthetic wall plate
- BA Backflow preventor
- Security valve
- By-pass mounted on the Dosatron pump.

### 801.500.500 BACKFLOW PREVENTOR BA 3/4 M X FT

Prevents the return of the product into the  
water-supply system.

# car, truck & boat

244.100.100 Tornador Cleaning Gun

## TORNADOR

The "TORNADOR-GUN" is the first compressed-air cleaning gun with a dispenser.

Use only the high-pressure air for dusting, or with water/cleaning liquid in the dispenser for cleaning. The „tornado effect“ releases dirt particles with great force from the surface to be treated.

Perfect for cleaning car interiors, dashboards, ventilation ducts, the space between car seats, car seat tracks, around fuel tank, licence plate numbers, the gear box and hand brake, storage spaces.

Astonishing results on car seat covers and carpets.

The Tornador Cleaning Gun works with a traditional universal cleaner, but also with special cleaning agents such as degreasers, nicotine remover etc.

244.500.101 Stainless steel nozzle

**NEW**

## STAINLESS STEEL NOZZLE

This nozzle is covered with a stainless steel coat on the inside.

When used intensively, it offers a much longer service life than the standard plastic nozzle.

244.500.900 Nozzle with brush

**NEW**

## NOZZLE WITH BRUSH

This nozzle is equipped with a brush that removes the dirt more efficiently.

It's mounted on the Tornador instead of the standard plastic nozzle.

## PVA CHAMOIS LEATHER

The Absorb-All is an ultra absorbent PVA based synthetic chamois, reinforced with a polymer fibre fabric for super strength durability.

Its three-dimensional structure (comparable to a natural sea sponge) will not damage the most delicate finishes or surfaces. Wrings out more easily than traditional towels or natural chamois. Perfect non-streak drying. Absorbs up to 5 times its own weight in water. Lint free. Resistant to most chemicals, grease and oil. Lasts longer than natural chamois and other synthetic products. Machine washable at 70° C. Delivered in a sealed case. Perfect for cleaning and drying vehicles, boats, shop windows, bodywork of cars, bathrooms, etc.

Now delivered in a handy Display Box

301.100.102 California Car Duster with wooden handle

301.100.101 California Car Duster with plastic handle

301.100.105 California Mini Duster

480.400.102 Budget Duster

## CAR DUSTERS

Remove dust and surface dirt with a quick once-over. Proven technology of baking a special wax on fine 100 % soft cotton strands ensure that dust is lifted and removed, not just pushed around. The specially treated strands don't scratch, not even on the most delicate surfaces. Last for years and years. Don't need cleaning or "retreating" with wax. The dirtier they get, the better they work.

The "Car Dusters" offer the perfect solution for cleaning cars in showrooms. The "Mini Duster" has the same features as the California Car Duster, but is mostly used for cleaning and removing dust from computers, blinds, televisions, furniture, worktables, motorbikes, etc.

Its unique, compact wedge-shaped design easily accesses hard-to-reach areas.

## WATER-BLADES

For drying any type of vehicle very quickly.

Dries vehicles 3 times faster than towels or chamois.

Soft silicone will not scratch. The flexible silicone blade moulds itself to almost any contour.

Excellent on other surfaces too: mirrors, windows, shower walls, tiles.

The Water Blades 1 blade and 3 blades fit on our telescopic handles and can be used for high-sided vehicles.

600.300.450 Mini Water Blade

480.100.099 Water Blade 1 blade

602.100.100 Water Blade 3 blades

The 1 and 3 blade water blades can be mounted on our PRO and MI-PRO handles.

## WASHING GLOVE WATERPROOF

Absorbs a huge amount of water. Keeps the hand dry and warm. Very soft: doesn't scratch paint.

206.250.250 Washing glove waterproof

## WASHING GLOVE POLYWOOL

Very soft and absorbent fibres. Excellent results for wet cleaning.

For Microfibre washing gloves: see chapter "Microfibres".

201.100.300 Washing Glove Polywool

ALSO CHECK OUT OUR OTHER WASHING GLOVES ON PAGE 19.

# car, truck & boat

600.000.001: DUO Brush 25 cm PRO  
600.000.004: DUO Brush 33 cm PRO

## DUO BRUSHES

This brush consists of 2 parts that are connected seamlessly in a 30° angle. The bi-level shape ensures maximum contact with the surface and gives a faster and more thorough cleaning result. More than 50000 fibres per brush make the DUO a long lasting brush.

The feathered fibres of the DUO brush create a very soft, dense surface that won't scratch delicate surfaces on vehicles. Very good resistance to chemicals.

600.000.009 QUADRO Brush 25 cm PRO

## QUADRO BRUSH

Has the same features as the DUO Brushes above, but 4 sides of the polypropylene block have fibres, so the block itself can't scratch or damage your car or truck.

602.000.001 DUO Brush 25 cm ANTEX

## DUO BRUSH 25 CM ANTEX

Has the same features as the DUO Brushes above.

But has in addition an: excellent resistance to high temperatures (> 100° C) excellent resistance to aggressive chemicals.

600.000.002 DIP Brush 25 cm

## DIP BRUSH 25 CM

More than 50 000 fibres per brush make the DIP a long lasting brush. The feathered fibres of the DIP brush create a very soft, dense surface, that won't scratch delicate surfaces on vehicles. Very good resistance to chemicals. Rubber protective trim.

600.000.005 Car cleaning Brush  
600.000.006 Wheel Brush

## CAR CLEANING BRUSH WHEEL BRUSH

More than 20 000 fibres per brush guarantee a long lasting brush. The feathered fibres of the DIP brush create a very soft, dense surface, that won't scratch delicate surfaces on vehicles. Very good resistance to chemicals.

600.900.110 Display Carton for Quadro/Duo brushes

**NEW**

600.900.115 Display Carton for DIP brushes

These cartons are really eye-catching and ideal for your shop or showroom. Perfect for an 'Impulse Sale' of brushes or the combination of a brush+handle (our handles can be mounted on the brushes through the carton)

## DIP BRUSH DELUXE 25 CM

Heavy density: more than 50 000 very soft fibres per brush. Good chemical resistance. Four sides have fibres, ensuring scratch-free washing.

600.000.011 DIP brush DELUXE 25 CM

## DUO BRUSH MEDIUM HARD FIBRES

For tarpaulins, Stainless Steel tanks and machines, floors and walls ...

600.000.015 DUO Brush medium hard fibres

## TELESCOPIC FIBRE GLASS HANDLES PRO

The new "PRO" handles have an upper telescopic part in very thick aluminium (25 mm) and a lower part in fibre glass (32 mm).

Will not bend, even under high pressure. More solid than traditional aluminium handles.

The threaded metallic tip fits on DUO brushes, QUADRO brush, DIP brushes, Water Blades and Squeegees & Washers.

## ALUMINIUM TELESCOPIC HANDLES PRO WITH WATER FLOW

Have the same features as the fibre glass telescopic handles PRO (see above). Two parts made from aluminium. With snap-on coupling to connect hose and on/off switch for regulating the water flow.

## ALUMINIUM TELESCOPIC HANDLE MI-PRO WITH WATER FLOW

With snap-on coupling to connect hose and on/off switch for regulating the water flow. Fits on DUO brushes, QUADRO brush, DIP brushes, Water Blades and Squeegees & Washers. Upper handle has rubber trim.

## FIBRE GLASS HANDLE 140 CM

Extremely solid. Fits on DUO brushes, QUADRO brush, DIP brushes, Water Blades and Squeegees & Washers.

## ALUMINIUM HANDLE 140 CM

Extremely solid. With snap-on coupling to connect hose and on/off switch for regulating the water flow. Fits on DUO brushes, QUADRO brush, DIP brushes, Water Blades and Squeegees & Washers.

## TRUCK BRUSH POLYESTER

The feathered fibres of this brush create a very soft, dense surface, that won't scratch delicate surfaces on vehicles. Heavy density (more than 50 000 fibres) for maximum durability.

Block in polypropylene. Excellent resistance to acids. Can be used with a wooden pole or our aluminium telescopic handles (ref. 122.555.101, 122.555.102 and 122.555.103)

119.100.002  
Truck brush polyester pp 25 cm  
119.100.004  
Truck brush polyester pp 35 cm

## TELESCOPIC HANDLE ALUMINIUM

With cone end. Fits on Truck brushes 119.100.002 and 119.100.004.

122.555.101  
Telescopic handle 2 x 1,0 m aluminium  
122.555.102  
Telescopic handle 2 x 1,5 m aluminium  
122.555.103  
Telescopic handle 3 x 1,5 m aluminium

## CAR BRUSH POLYESTER

The feathered fibres of the Car brush create a very soft, dense surface, that won't scratch delicate surfaces on vehicles. Heavy density (more than 20 000 fibres) makes the Car Brush a long lasting brush. Block in polypropylene. Good resistance to chemicals.

119.100.005 Car brush polyester

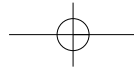

## CAR CLEANING BRUSH WITH WATER TANK

Built in water tank holds water to save time. Cleans one side of car in one go. Polypropylene body. Feathered soft fibres.

225.100.100 Car cleaning brush with water tank

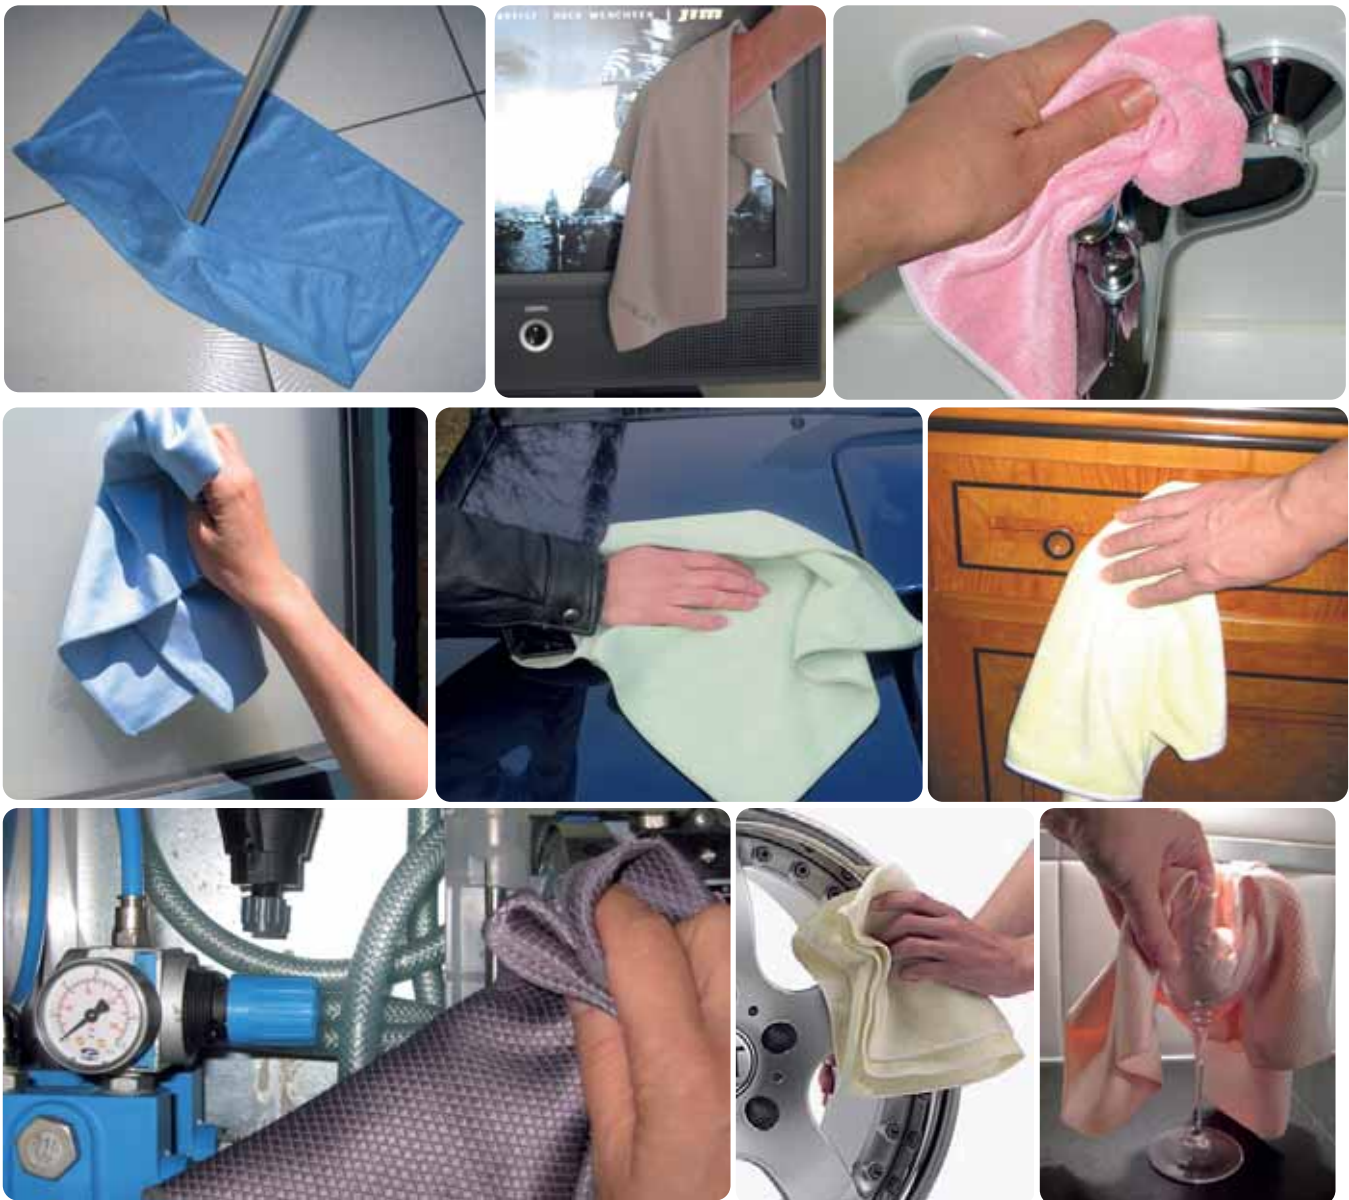

# Microfibres

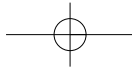

Microfibre is causing a stir in the cleaning industry. It's quickly becoming the cleaning and polishing fabric of choice in daily cleaning. Microfibre is a superior, chemical free textile that is made from polyester and polyamide. The thickness of Microfibre is finer than 1/100 of a human hair.

It can be used dry or slightly dampened with water. Used dry it attracts dust and dirt like a magnet. It can absorb up to 7 times its weight in water. The high density of fibres results in a fabric that cleans more thoroughly than traditional cloths.

Microfibre cloths are not only very soft, but also perfect for cleaning the most delicate surfaces: they are extremely strong and are durable enough to withstand over 250 washings. Many people believe that Microfibre products will become the leading cleaning product of the 21st century.

# Microfibres

## TRICOT LUXE

MICRO-FIBRES IN INDIVIDUAL PACKING IS ALSO POSSIBLE BAGS WITH 1 - 2 - 3 - 4 OR 5 CLOTHS. PLEASE CONTACT US FOR MORE INFORMATION.

# Odour control

## WHAT'S OZONE?

Have you noticed how pure and fresh the air is after a storm? This pleasant effect, one of the daily wonders of nature, is reproduced by the unique corona discharge tube in our odour control appliances "Biozone", "Germazap" and "Mini Envirozone".

They convert oxygen into active oxygen (ozone) which sterilises the air by destroying bacteria and odour molecules. Ozone has a life of about 35 minutes and is automatically converted back to oxygen.

Compared with other systems that only mask odours, ozone gets down to the root of the problem in order to destroy the bad smells for ever.

Because it's a gas, ozone penetrates deep into hard-to-reach spaces.

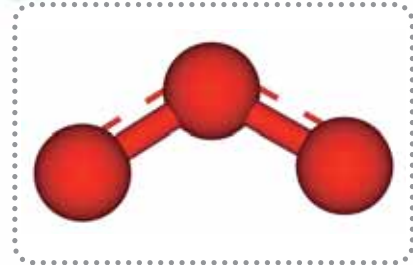

Our appliances are portable, compact and very well manufactured. A standard 240 V socket is all you need to deal with any odour (and bacterial) problem.

The Mini-Envirozone, New Germazap and Biozone eliminate bad odours permanently.

They neutralise odours from tobacco, pets, fast food, paint, urine, meat, fish, smoke and fire, chlorine, etc

They also destroy bacteria and reduce their growth. No expensive labour cost.

Once switched on the unit works independently and ensures an odourless and sterile atmosphere.

The ozone molecule consists of 3 oxygen atoms. The chemical formula for ozone is O<sub>3</sub>.

## BIOZONE

Ideal applications:

Car hire and dealers: pet and cigarette smells may put a potential buyer off. After using the Biozone, the cars smell like new again. It's also perfect for buses, lorries, caravans and refrigerated vehicles.

Hotels: the contemporary demanding customer doesn't accept fusty or unpleasant smelling hotel rooms anymore. With Biozone, hotelrooms always smell fresh.

Fire damage restoration.  
Slaughterhouses, Meat and Fish processing plants.  
Chemical and pharmaceutical Industry.  
Mortuaries and rubbish containers.  
Sterilisation of ventilation ducts, etc.  
Bacterial disinfection of meat and fish processing plants.

The Biozone is one of the most powerful appliances on the market.  
Do not enter a room where the Biozone is working. Activation and shut down is set by an integrated time clock.  
Housing: Stainless Steel  
Coverage area: 700 m<sup>3</sup>

## MINI-ENVIROZONE NEW GERMAZAP

Ideal applications:

All meat and fish processing plants.  
Offices, meeting rooms, doctors' and dentists' reception and waiting rooms, showrooms.  
Hotels and restaurants. Rest rooms and launderettes.  
Hospitals, nursing and care homes.  
Fitness and leisure centres.  
Chemical plants etc.  
Hairdressers and beauty salons.  
Vets and pet shops.

Coverage area of the Mini-Envirozone: 90 m<sup>3</sup>  
Coverage area of the New Germazap: 160 m<sup>3</sup>

With Velcro-system. Fits on our Aluminium Mop Frames Deluxe.

460.200.200 Mop Rasta 44 x 13 cm blue  
460.200.202 Mop Rasta 44 x 13 cm violet

**NEW**

130.100.100 Rakleto

## RAKLETO

The NEW RAKLETO SYSTEM consists of a handle, a special waffled cloth (ref. 615.400.004) and the Rakleto squeegee made of tough foam rubber.

This very solid and simple system is also the most economic, because in one cleaning operation, the cloth can be used five times.

To be used with our aluminium telescopic handles 2 x 0,9 m (ref. 480.400.300), 3 x 0,6 m (ref. 480.400.330) or aluminium handle 140 cm (ref. 480.400.298).

The texture of this new MOP cloth literally scrapes off the encrusted dirt from the floor. Machine-washable more than 100 times at 60° C.

Perfect for dry and wet cleaning.

The most economic of all cleaning systems.

**NEW**

615.540.540 Mop with scouring strips 44 x 13 cm

## MOP WITH SCOURING STRIPS

This mop has special strips made of a scouring ingredient for more cleaning power. Excellent cleaning result used moist and wet. The absorbent fibres work perfectly on tile floors, linoleum, marble and parquet floors. With Velcro-system. Fits on our Aluminium Mop Frames Deluxe. Long service life.

615.400.004 Waffled Cloth 55 x 27 cm blue

500.100.100 Clean & Go sports bag

# Syphon pump

802.100.100 Syphon pump polyethylene

## SYPHON PUMP POLYETHYLENE

In polyethylene.  
High quality pump at a very competitive price.  
Good resistance to chemicals.

Drum pump polypropylene.

802.100.105 Syphon pump in polyethylene small model

## SYPHON PUMP IN POLYETHYLENE SMALL MODEL

For 5, 10, 25 and 30 l barrels.

802.100.200 Lever action drum pump polypropylene

## DRUM PUMP POLYPROPYLENE

Applications: Water, alcohol, diesel, lubricants, acids & alkalis.

Material: Polypropylene and Stainless Steel 316.  
Suitable for barrels from 25 to 200 litres. Comes with telescopic tube + extension.

Drum pump Polypropylene

802.100.300 Lever action drum pump ryton

## DRUM PUMP RYTON

Applications: Solvents, acids & alkalis in high concentration.

Material: Ryton and Stainless Steel 316.

Suitable for barrels from 25 to 200 litres.

Comes with telescopic tube + extension.

Drum pump Ryton

121.400.400 Adaptor syphon pump black

## ADAPTOR FOR PLASTIC BARRELS

Fits on syphon pump and lever action drum pumps.  
Other adaptors on request

## POWER PUMP

This Power Pump is the easiest way to transfer a fluid from one reservoir to another.

You only have to immerge the end of the hose into the fluid and shake it up and down a few times. Thanks to the self-priming valve the fluid starts to run automatically. (the outlet has to be placed lower than the barrel from which you want to transfer the fluid).

Works with almost all kinds of fluids: water, petrol, diesel, insecticides, fertilisers, solvents, cleaning agents ...

Flow rate: 12 l/minute.

### This pump can be used for various applications :

To transfer petrol/diesel into the tank of your car, van, boat, motorbike, jet ski, lawn mower etc.

To empty toilets and sinks, aquariums, Jacuzzis, swimming pools, car radiators ...

To decant beer or wine.

To fill up water tanks of motor homes.

To empty or fill storage tanks.

To transfer cleaning agents or disinfectants.

### Benefits of the Power Pump

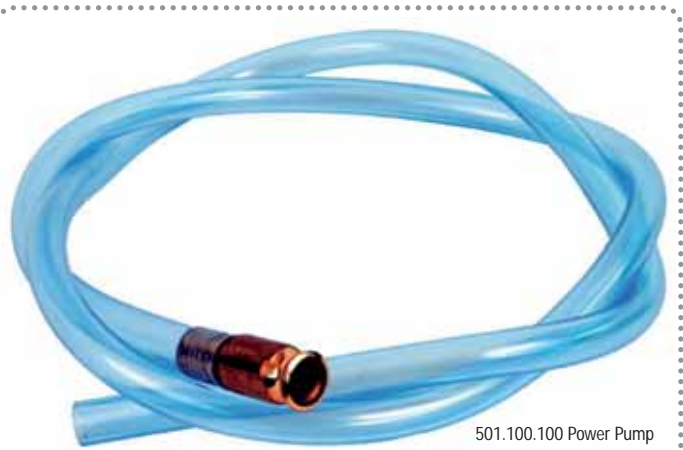

Safety: you don't have to suck the product into the hose with your mouth and you don't have to carry heavy barrels or containers anymore. Saves your back and avoids breathing in chemical or petrol fumes.

Besides that, there's no more contact with the product itself. The Power Pump makes a direct connection between the 2 reservoirs.

Power saving: no need for Electricity or any other energy source.

The Power Pump is always already to be used.

Product saving: compared to a manual transfer (possibly using a hopper) the Power Pump does the job without spilling.

501.100.100 Power Pump

# Miscellaneous

207.500.500 Hand wringer

## HAND WRINGER

Solid steel frame.  
Auto lubricating : never needs oil.

4 springs to adjust pressure  
Wall mounted.

Dimensions: 58 x 30 x 23 cm

803.100.100 Water saving gun brass

## WATER SAVING GUN

The ideal low pressure gun for industrial and food related cleaning.

Flow adjustable from a fine mist to a concentrated jet.

EPDM casing protects against shocks and hot or cold temperatures.

Extremely sturdy brass (ref. 803.100.100) or Stainless Steel (803.100.102) construction.

Reduces water consumption.

Max. water pressure: 25 bar

Max. temperature: 80° C

803.100.102 Water saving gun  
Stainless Steel

803.100.200 Gun coupling 1/2"  
803.100.201 Hose coupling 1/2" diam.  
13 mm

122.400.400 Wall hanger with 3 clips

## WALL HANGER WITH 3 CLIPS

This ingenious system keeps handles nicely organised and neatly arranged.

Handles with any diameter (between 9 and 35 mm) can be held in place.

Stainless Steel rail (50 cm) with 3 clips. The materials used are appropriate for the food industry.

## DISINFECTION MATS

\*Are filled with any chemical recommended for protection against diseases being carried into sensitive areas on footwear.

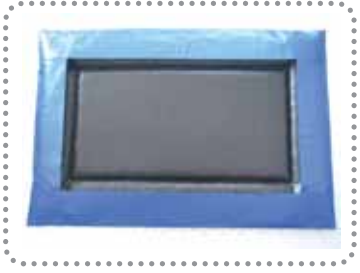

Can contain up to 10 litres of disinfectant (30 litres in the larger model).

The sponge in the mat absorbs the disinfectant very easily.

The protective cover makes sure that the liquid doesn't leak.

When feet come into contact with the mat, the disinfectant passes onto the footwear, without damaging them.

The mats are easily cleaned with water hose or high pressure cleaner.

115.100.100 Disinfection Mat - 60 x 90 cm  
115.100.101 Disinfection Mat - 180 x 90 cm

## FILLING STATIONS

Automatically dilutes chemical concentrates with water at the touch of a button.

Dilution is controlled by coloured metering tips of varying size (between 0.3 and 30 %).

A fixed dilution ratio prevents wasting or overdosing chemicals.

For dispensing multiple products the units can be joined together. No need for electricity, connects easily to a water supply.

The 4 l model is used to fill bottles, the 14 l model for buckets, sprayers, auto Washers

205.100.300 Dilution unit 4 l/min

205.100.400 Dilution Unit 14 l/min

## VENTURI INJECTOR

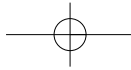

Functions the same way as the dilution units.  
Has a free-flow outlet instead of a button.

3 positions:

- Dosing function (water + chemical)
- Rinsing function (water only)
- Self-cleaning function (the venturi cleans itself)

400.00.900 Venturi injector

# Printing

## FANTASTIC ADVERTISEMENT

With our new tampon printer we print your logo and company details on our bottles, microfibre cloths, Rasta washing gloves. An opportunity for publicity with clients who come in contact with your products every day, that is not to be neglected. A small investment that guarantees an immediate result. Please ask for our interesting sales terms without any commitment.

## HIGH-TECH TAMPON PRINTER

Early in 2009 we invested in our first professional tampon-printer.

The tampons are made of silicone and are used to transfer the ink from the cliché on to the object.

The big advantage of the technique is that the tampon is flexible and that it adjusts itself to the shape of the object.

The most popular application is the printing of our 600 ml and 1000 ml bottles.

*De Witte has been active in the professional cleaning industry and dosing systems for over 20 years now.*

*All this time our mission has stayed the same:*

*The constant search for new cleaning and dosing techniques, especially "applicators"; and for systems and equipment which can apply cleaning agents and other chemicals in a fast, economic and efficient way.*

*All this, of course with carefully chosen quality products, attractive prices for resale and permanent availability for our customers.*

*We will continue to be at your service with the same enthusiasm and you can count on several new product launches in the near future.*

*(Dirk De Witte, Management)*
