NOW HERE IS YOUR LAUNDRY...

... HOW WILL YOUR LAUNDRY, THANKS TO THE INNOVATIVE QUANTUM SYSTEM

# LAUNDRY CONCENTRATED SISTEMA QUANTUM

**QUANTUM SYSTEM = 33% SAVING effective compared to TRADITIONAL METHOD**

## QUANTUM SYSTEM - THE REVOLUTION OF INDUSTRIAL LAUNDRY

QUANTUM is a modular system for automatic liquid dosing super concentrates for washing fabrics.

### NEW PRINCIPLE OF OPERATION

CLEANING LIQUIDS means getting a safe dosage and constant; avoid fouling of pipes and filters of washing machines, preserve and not to damage the fibers compared to the last use of the powders.

### THE PURPOSE OF INNOVATIVE USE THE QUANTUM IS TO OBTAIN:

- ease of use
- safety
- efficiency
- control cost in use
- remote control of equipment
- warehouse space
- preserving the environment and reducing disposal canisters
- transport

### INNOVATION IS ALSO IN BOTTLES

The new bottles have been designed to only be used with the SYSTEM QUANTUM; are lightweight: weighs only 5/6kg than current 20/25kg. In addition to ease of use has been devised a color-coded tag that matches the color of the tube dispenser.

These innovations lead us to have a sustainable eco system, as we will get a substantial reduction of plastic waste and a consequent reduction of transport.

### BENEFITS

The benefits of adopting the SYSTEM QUANTUM will be to obtain:

- Laundry room neater
- Better handling and ergonomics of the bottles
- Easy to use and understand for customers and staff
- No risk of error and exchange products
- Less need for training
- Consistently and reliably dosages / results
- Time saving / efficiency

QUANTUM BASIC

Super concentrated alkaline detergent

Strongly alkaline, non-foaming, sequestering inorganic super concentrated detergent, with high concentration of active ingredients, for removing greasy dirt and protein stains. Should be used together with **Quantum Surf** for pre-washing or washing.

**USE:** all kinds of fabrics..  
**DOSAGE:** with automatic dosing system: 2-6g per kg of dry linen, depending on water hardness and degree of soiling.

Code: 2051HC  
Package: 2pcs x kg6,5  
EAN code: 8032680390098

QUANTUM SURF

Super concentrated enzymatic complete detergent

Super-concentrated complete organic detergent for white or coloured fabrics. Its improved formula with enzymes and surfactants removes the toughest stains, respecting fabrics and colours. Also effective at low temperatures. Should be used together with **Quantum Basic**.

**USE:** all kinds of fabrics..  
**DOSAGE:** with automatic dosing system: 2-6g per kg of dry linen, depending on water hardness and degree of soiling.

Code: 2052HC  
Package: 2pcs x kg5  
EAN code: 8032680390111

QUANTUM CHLOR

Concentrated active chlorine-based bleach

Whitening bleach with stabilized active chlorine with sanitizing action. Its special formula guarantees excellent results on difficult stains. High whitening power even at low temperatures. Complete hygiene on all items treated.

**USE:** all bleach-resistant fabrics..  
**DOSAGE:** with automatic dosing system: 1-4g per kg of dry linen, depending on water hardness and degree of soiling.

Code: 2053HC  
Package: 2pcs x kg6,20  
EAN code: 8032680390180

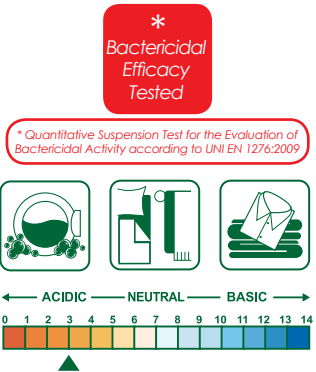

QUANTUM OXYGEN

Active Oxygen-based bleach

Whitening bleach with active oxygen. When dissolved, develops oxygen and removes all kinds of stains, even organic. Works at medium-high temperature. Complete hygiene on all items treated.

**USE:** all bleachable white or coloured fabrics..  
**DOSAGE:** with automatic dosing system: 2-6g per kg of dry linen, depending on water hardness and degree of soiling.

Code: 2050HC  
Package: 2pcs x kg5,5  
EAN code: 8032680390173

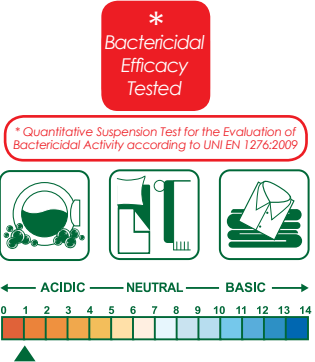

QUANTUM PERACETICO

Sanitizing bleach

Liquid bleach based Peracetic Acid, Acetic Acid and Hydrogen peroxide. Great action stain removal and sanitizing of the linen, at low temperatures. Removes any stain and any residual chlorine from the tissues whether or not colored.

**USE:** all resistant fabrics bleaching..  
**DOSAGE:** with automatic dosage: 2-6g per kg of linen dry according to water hardness water and degree of soiling.

Code: 2054HC  
Package: 2pcs x kg 5  
EAN code: 8032680392474

QUANTUM SOFT

Concentrated Neutralizing fabric softener  
Mediterranean Flowers

Super concentrated neutralizing softener, leaves your laundry soft and pleasant to touch. Neutralizes alkaline detergent residues and restores the ideal pH of fabrics. Its enriched formula with hydrating and anti-felling agents protects the fibres and makes ironing easier. Leaves your laundry pleasantly scented.

**USE:** all kinds of fabrics..  
**DOSAGE:** with automatic dosing system: 2-4g per kg of dry linen, depending on water hardness.

Code: 2064HC  
Package: 2pcs x kg 5  
EAN code: 8032680390081

CENTRALINA LAVANDERIA QUANTUM

6 Pumps - For washing machines from 7kg to 50kg of laundry

### STOVIL ULTRA

Sanitizing Detergent - Eliminates odors - Hard Water

**Code:** 1140  
**Package:** 2pcs x kg6  
**EAN code:** 8032680392122

**Code:** 1141  
**Package:** 1pcs x kg12  
**EAN code:** 8032680392139

**Code:** 1142  
**Package:** 1pcs x kg25  
**EAN code:** 8032680392146

Sanitizing alkaline detergent for commercial dishwashers with automatic dosing system. Detergent: excellent degreasing power for grease, starch, etc. Odour remover: lemon oil. Sequestering: prevents the forming of spots and limescale on kitchenware and washing equipment. Shiny steel: brilliant kitchenware with no spots or water stains. Active protection: prevents permanent corrosion of glassware.

**USE:** Hard or very hard water >35°F. DO NOT USE ON ALUMINIUM.  
**DOSAGE:** With automatic dosing system: 1-2 g per litre, depending on water hardness.

### STOVIL POWER

Sanitizing Detergent - Water Medium

**Code:** 1120  
**Package:** 2pcs x kg6  
**EAN code:** 8032680391613

**Code:** 1121  
**Package:** 1pcs x kg12  
**EAN code:** 8032680391620

**Code:** 1122  
**Package:** 1pcs x kg25  
**EAN code:** 8032680391637

Sanitizing alkaline detergent for commercial dishwashers with automatic dosing system. Detergent: excellent degreasing power for grease, starch, etc. Sequestering: prevents the forming of rings and limescale on kitchenware and washing equipment. Shiny steel: brilliant kitchenware with no spots or water stains. Active protection: prevents the permanent corrosion that makes glassware opaque.

**USE:** For soft to medium-hard water (15°F to 35°F).  
**DOSAGE:** With automatic dosing system: 1-3 g per litre, depending on water hardness.

STOVIL ACTIVE

Dishwasher detergent - Soft water

Code: 1100  
Package: 2pcs x kg6  
EAN code: 8032680390340

Code: 1102  
Package: 1pcs x kg23  
EAN code: 8032680390418

Phosphate-free, strongly alkaline concentrated liquid detergent for professional dishwashers with automatic dosing system. Excellent penetrating power, dissolves and disperses dirt and removes bad odours.

**USE:** for soft water (<15°F).

**DOSAGE:** with automatic dosing system: 1-3 g per litre, depending on water hardness.

EAN code: 8032680391378

High-concentration, deoxidizing, descaling detergent for washing crockery and utensils made of aluminium, silver, copper and brass in pot-and-pan washers and ware washers. Doe not contain caustic substances and does not corrode light metals.

**USE:** crockery, pots and pans, trays and utensils made of aluminium, silver, copper, brass and all light metals.

**DOSAGE:** with automatic dosing system: 3-5 g per litre, depending on water hardness.

STOVIL BAR

Sanitizing detergent with rinse aid - for glass washers

Code: 1110  
Package: 2pcs x kg6  
EAN code: 8032680391583

Sanitizing alkaline detergent for commercial glasswashers and dishwashers with automatic dosing system. Detergent: efficiently removes coffee, tea and lipstick stains. Rinse agent: brilliant effect on glasses and glassware. Sequestering: prevents the forming of spots and limescale. Shiny steel: brilliant kitchenware with no spots or water stains. Active protection: prevents permanent corrosion of glassware.

**USE:** Suitable for any degree of water hardness.

**DOSAGE:** With automatic dosing system: 1-2 g per litre, depending on water hardness. 1/2 cap for every 10 litres of water.

STOVIL TABS

Sanitizing detergent with rinse aid - for glass washers

Code: 1160  
Package: 100 tabs = 2kg  
EAN code: 8032680392207

6 lemon scent Tabs in 1 with odour eliminating action for crockery washing in dishwashers and glass washers.

**Detergent:** removes dirt.

**Brightener:** without rings.

**Limescale:** the formula of powerful agents, sequestering action antir-depositante place.

**Shiny Steel:** brilliant crockery without rings and water stains.

**Active protection:** prevents permanent corrosion of glasses.

**Sanitizer:** oxygen is activated at every wash for maximum hygiene of your dishes.

**USE:** in any type of water hardness conditions.

**DOSAGE:** 1 tab every 5-8 cycles.

BRILL ULTRA

Rinse Aid - Eliminates odors - Hard Water

Code: 1150  
Package: 2pcs x kg5  
EAN code: 8032680393105

Code: 1152  
Package: 1pcs x kg20  
EAN code: 8032680393129

Concentrated rinse agent for commercial dishwashers and glasswashers with automatic dosing system, with **Rinse agent:** unbeatable brightness for glasses and crockery. **Anti-spotting:** facilitates rapid drying and removes limescale. **Glass protection:** prevents wear and opacity of glass. **Shiny steel:** brilliant kitchenware with no spots or water stains. **Odour remover:** essence of citrus to effectively remove bad odours.

**USE:** hard or very hard water (>35°F).  
**DOSAGE:** with automatic dosing system: 0.2-0.5 g per litre, depending on water hardness.

BRILL POWER

Dishwasher rinse agent for medium - Hard water

Code: 1133S  
Package: 6pcs x ml1000  
EAN code: 8032680390609

Code: 1130  
Package: 2pcs x kg5  
EAN code: 8032680391644

Code: 1132  
Package: 1pcs x kg20  
EAN code: 8032680392092

Concentrated rinse agent for commercial dishwashers and glasswashers with automatic dosing system, with **Rinse agent:** unbeatable brightness for glasses and crockery. **Anti-spotting:** facilitates rapid drying and removes limescale. **Glass protection:** prevents wear and opacity of glass. **Shiny steel:** brilliant kitchenware with no spots or water stains. **Odour remover:** essence of citrus to effectively remove bad odours.

**USE:** for soft to medium-hard water (15°F to 35°F).  
**DOSAGE:** with automatic dosing system: 0.2-0.5 g per litre, depending on water hardness.

DEKAL

Descaler for dishwashers and washing machines

Code: 1950  
Package: 2pcs x kg6  
EAN code: 8032680391569

Acid-based descaler with corrosion inhibitors for the routine maintenance of dishwashers and washing machines. Decalcifies utensils and equipment quickly and safely, removing limescale, rust and starch without corroding metal and gaskets.

**USE:** Dishwashers, washing machines, boilers, pasta cookers, washing equipment, utensils, cutlery, etc.  
**DOSAGE:** 5%-15% depending on level of deposits. Approx. 1 cap per litre of water. Run a wash cycle with the machine empty.

Run a wash cycle with the machine empty.

\*Even for food industry

AMMOLLO

Non-foaming detergent for soaking dishes

Code: 1165  
Package: 2pcs x kg5  
EAN code: 8032680393136

Perfumed concentrated non-foaming liquid detergent for soaking kitchenware before washing in dishwasher. Facilitates the removal of dirt, grease and starch from kitchenware left to soak in hot water, saving energy and detergent when machine washing.

**USE:** crockery, pots and pans, cutlery, equipment.  
**DOSAGE:** 4-6 g per litre, depending on water hardness and degree of soiling. Approx. 1/2 cap for every 5 litres of water.

# MANUAL DISHWASHING

DISPENSER

A wall for detergents and dishwasher

Manual dispenser for detergent and dishwashing by hand. It is a pump of great benefit to hotels, restaurants, catering and large communities. It is easy to use, requires no electrical current to be applied to the sink or on the wall. The release can be adjusted in doses of 5-15 - 30ml depending on the necessity.

Optimize the dosage to avoid waste.

Code: 0007  
Package: 1pcs  
EAN code: 8032680395437

NEOPOL

Dermatologically tested.

Ultra-concentrated, antibacterial, lemon-scented detergent gel for washing kitchenware by hand. Degreases in depth and removes bad odours. Product with neutral pH, delicate on the hands. Ideal for cleaning beer tankards, wine glasses and decanters using a glass brush. Does not break down beer foam.

USE: Pots and pans, cutlery, glasses. Washing windows and fixtures using a squeegee.  
DOSAGE: 1-3 g per litre, depending on water hardness. 1/3 cap for every 5 litres of water.

Code: 1270  
Package: 2pcs x kg5  
EAN code: 8032680392825

PIATTI GEL Antibacterial

Citrus

Pink Grapefruit and Green Tea

Dermatologically tested

Ultra-degreasing, antibacterial, deodorant detergent gel for washing kitchenware by hand. Removes oil, grease, food residues and burned scaling. Product with neutral pH, delicate on the hands.

USE: crockery, cutlery and glasses.  
DOSAGE: 2-3 g per litre, depending on water hardness. ½ caps for every 5 litres of water.

Code: 1230  
Package: 2pcs x kg5  
EAN code: 8032680391699

H.A.C.C.P. DISINFECTANT DETERGENTS

DISINFECTANTS are chemical formulas with antibacterial activity that can destroy noxious micro-organisms. Products defined as Medical Surgical Devices are registered with the Ministry of Health. Products defined as SANITISERS contain the same active antibacterial and biocide ingredients notified at European level but are not registered with the Ministry of Health.

ACTIVE INGREDIENT	ACTION
QUATERNARY AMMONIUM SALTS	Very active on Gram+ and Gram- bacteria and some fungi. Penetrating, wetting action on all surfaces, even rough ones. Stable in alkaline environment.
DICLOSAN - TRICLOSAN	Very effective on pathogenic microorganisms, bacteria and viruses. Breaks chemical bonds of micro-organism molecules. Non-toxic for humans and does not leave residues.
BENZYL ALCOHOL	Destroys cell membrane interfering with cell metabolism and denaturing cellular proteins. Active on Gram+ and Gram- bacteria. Active on lipophilic viruses and fungal spores. Does not leave residue.
CHLORINE (SODIUM HYPOCHLORITE)	Excellent sanitising germicidal power as Chlorine inhibits cellular enzymatic reactions. Excellent germicidal against many microorganisms. Non-toxic for humans and does not leave residues. Does not stain (apart from fabrics). Deodorises and eliminates odours.

MULTI ACTIV

Odourless sterilising detergent with 2 Antibacterials

Code: 1821S  
Package: 6pcs x ml750  
EAN code: 8032680391446

Ready for use alcoholic odourless sterilising degreaser. The exclusive formula with 2 antibacterial active ingredients, Salt of Quaternary Ammonium and Diclosan, guarantees the removal of germs, bacteria and bad odours. The presence of 2 antibacterial main ingredients prevent the resistance of bacteria, therefore does not require the use of more detergents. Suitable for all surfaces in contact with food.

**USE:** in the kitchen: chopping boards, slicers, knives, work surfaces, cold storage units, meat mincer, thermos food holder.

**DOSE:** ready for use.

SANIMED

Unscented sanitizing detergent with 2 antibacterial agents

Code: 1511  
Package: 2pcs x kg5  
EAN code: 8032680391248

Concentrated unscented sterilizing detergent with 2 antibacterial active ingredients, quaternary ammonium chloride at 10% and diclosan, which ensure a strong bactericidal, germicidal and fungicidal action. The presence of 2 antibacterial active ingredients prevents the development of bacterial tolerance and therefore does not require alternating between different detergents.

**USE:** food-processing equipment, work surfaces, floors, tools, kitchens, bathrooms, public premises and hospitals.

**DOSAGE:** 0.5%-1%. 1 cap for every 5 litres of water.

GREKOL SS

Unscented HACCP degreaser

Code: 1825S  
Package: 6pcs x ml750  
EAN code: 8032680397639

Code: 1815  
Package: 2pcs x kg5  
EAN code: 8032680392740

Concentrated no-rinse universal degreaser for cleaning all surfaces that come in contact with food. Does not contain caustic substances or solvents, therefore does not damage surfaces. Removes dirt without leaving rings or residues.

**USE:** kitchens, canteens, food and meat-processing industries.

**DOSAGE:** ready to use 2%-5% depending on degree of soiling, by hand or with floor-cleaning machine 1-4 caps for every 5 litres of water.

TAYFORM

P.M.C. 8071 - Not perfumed

Code: 1550  
Package: 6pcs x ml750  
EAN code: 8032680395215

**Medical and Surgical:**  
Join San Min. n° 8071

Disinfectant - Detergent not fragrant, based on quaternary ammonium salts broad spectrum of action, germicidal against: bacteria, viruses, molds and fungi. Without color and scent is ideal for all surfaces in contact with food and plans HACCP.

**USE:** cutting boards, slicers, meat grinders, worktops and cold rooms. Public buildings and hospitals.

**DOSAGE:** ready to use.

VIRQUAT 10

P.M.C. 13913 - Not perfumed

Code: 1551  
Package: 2pcs x kg5  
EAN code: 8032680392733

**Medical-Surgical Aid (MSA):**  
Health Min. Reg. no. 13913.

Disinfectant - Detergent - Unscented, with quaternary ammonium chloride at 10% having broad-spectrum germicidal effects against bacteria, viruses, moulds and fungi. Ideal for all surfaces in contact with food and included in HACCP self-monitoring plans.

**USE:** chopping boards, slicers, meat mincers, work surfaces, cold storage units. All public premises and hospitals.

**DOSAGE:** 0.2%-1%. Approx. 1 cap for every 5 litres of water.

CLORO TABLET

With Antibacterial

Code: 2120  
Package: 6pcs x kg1  
EAN code: 8032680391712

Concentrated active chlorine soluble tabs for a safe detergent, antibacterial action and eliminates odours on all washable surfaces. 1kg= 300 tabs.

**USE:** for all floors, washable surfaces, dishwashers, washing machines, kitchens, bathrooms and WC, containers and food industry installations/plants, hospitals and restaurants.

**DOSE:** 1 tab in 3 litres of water for an ideal washing solution of water and chlorine.

Alpine Breeze

Alpine Breeze

Citron and Bergamot

Code: 1520S  
Package: 6pcs x ml1000  
EAN code: 8032680390289

Code: 1521  
Package: 2pcs x kg5  
EAN code: 8032680391255

Code: 1523  
Package: 2pcs x kg5  
EAN code: 8032680392764

Perfumed sterilizing detergent with  
2 antibacterial active ingredients,  
quaternary ammonium chloride  
and Diclosan. Degreases in depth  
and leaves the room pleasantly per-  
fumed. The presence of 2 antibac-  
terial active ingredients prevents the  
development of bacterial tolerance  
and therefore does not require alter-  
nating between different detergents.

USE: all floors and washable surfac-  
es of kitchens, bathrooms, public  
premises or hospitals.

DOSAGE: 2%-3% 2 caps for every 5  
litres of water. No rinsing required.

MULTI ACTIV BAGNO

Not acid alkaline detergent, bi-active sanitizer

Code: 1822S  
Package: 6pcs x ml750  
EAN code: 8032680392009

Alkaline detergent scented with  
Antibacterial for daily cleaning of  
baths, sinks, toilets, showers and  
floors. Its new formulation does not  
sour, does not corrode and does  
not ruin the marble and the natural  
stones. Degreases without scratch  
the surface leaving a film protective  
to prevent encrustations and smells  
long environments.

USE: sinks, faucets, showers, toilets  
and tiles.

DOSAGE: ready to use.

CLORO GEL

Perfumed Sanitizing Active-Chlorine Detergent

Code: 1560S  
Package: 6pcs x ml750  
EAN code: 8032680393167

Code: 1562S  
Package: 6pcs x ml1000  
EAN code: 8032680399121

Perfumed active-chlorine detergent gel with sterilizing degreasing action.  
Its formula cleans in depth without scratching, guaranteeing a sanitizing  
action on all treated surfaces. The gel adheres to vertical surfaces. Suit-  
able for HACCP plans.

USE: kitchen, work surfaces, equipment, bathrooms, sinks, WC, floors.  
DOSAGE: ready to use. 1%-2% for cleaning floors, 1-2 caps for every 5 litres  
of water. No rinsing required.

WITH SPRAY FOAMER

# H.A.C.C.P. AGRI-FOOD DEGREASERS

## EMULSI-CHLOR

Antibacterial active-chlorine foaming detergent

**Code:** 1860  
**Package:** 2pcs x kg5  
**EAN code:** 8032680391507

**Code:** 1861  
**Package:** 1pcs x kg20  
**EAN code:** 8032680392924

Grease-emulsifying, foaming alkaline detergent with antibacterial active chlorine, particularly suitable for removing organic residues of vegetable and animal origin from work surfaces, equipment, cold storage units, tools, milking plants, steel tanks, floors, walls. Dispensed from a foam-making doser, Emulsi-Chlor forms a thick, dense foam that adheres to even vertical surfaces. Its chlorine based formula guarantees the removal of germs and bacteria.

**USE:** food, agricultural, dairy, meat-processing industries.  
**DOSAGE:** 1%-2% apply with foaming dispensers or manually. 1 cap for every 5 litres of water.

## EMULSI-QUATER

Foaming, antibacterial alkaline degreaser

**Code:** 1850  
**Package:** 2pcs x kg5  
**EAN code:** 8032680391491

**Code:** 1851  
**Package:** 1pcs x kg23  
**EAN code:** 8032680397653

Grease-emulsifying, foaming alkaline detergent with antibacterial quaternary ammonium chloride for cleaning and sanitizing. Removes dirt and grease of organic (vegetable and animal) or inorganic origin. Easily removes dense blood and grease residues, leaving steel surfaces bright and shiny.

**USE:** Food, agricultural, dairy, meat-processing industries.  
**DOSAGE:** 1%-2% when used with foam-making devices, pressure washers or by hand. 1 cap for every 5 litres of water.

EMULSI-KAL

Foaming acid descaler

Code: 1855  
Package: 1pcs x kg24  
EAN code: 8032680393143

Foaming acid detergent for removing limescale. Applied using foam-making devices, removes limescale even from vertical surfaces. Should be used periodically to neutralize previous cleaning with alkaline or chlorine-based products.

**USE:** Food, agricultural, dairy, meat-processing industries.

**DOSAGE:** 3-10 g per litre, depending on water hardness.

EMULSI-CIP

Not-foaming alkaline detergent

Code: 2140  
Package: 1pcs x kg25  
EAN code: 8032680392306

Not-foaming, strongly alkaline detergent for washing CIP systems and for all recirculation and spray applications in the food, dairy and beverage industries. Removes grease, vegetable oils and organic residues from filling lines, pipes, tanks, recirculation and/or pressure systems. The absence of foam allows fast and simple rinsing.

**USE:** CIP systems, filling lines, pipes, tanks, fillers.

**DOSAGE:** CIP plants 1%. By hand or with pressure washer 2%.

NEW  
NATURAL

Fruit and vegetable washer

Code: 2100  
Package: 2pcs x kg5  
EAN code: 8032680391705  
Code: 2101  
Package: 6pcs x ml1000  
EAN code: 8032680391842

Detergent with natural ingredients that facilitates the removal of wax, germs and pesticides from fruit and vegetables, ensuring complete hygiene without altering their natural flavours. Recommended for canteens, restaurants, kitchens, public institutions and hospitals.

**USE:** fruit and vegetables.

**DOSAGE:** 1%-3%. 1 cap for every 5 litres of water. Rinse.

DILUITORE PROMAX

For detergents

Automatic dosing pump, connected to the water network, that can easily and rapidly prepare any chemical mixture to be used in common cleaning applications. Does not require electricity or compressed air. The operator must only press the button and the product comes out already correctly diluted. Various dilutions available to optimise waste.

EMULSI-HYPOCHLOR

Not-foaming, antibacterial active-chlorine detergent

Code: 1862  
Package: 1pcs x kg24  
EAN code: 8032680393518

Not-foaming, degreasing, active-chlorine, alkaline detergent for food filling plants industries with CIP systems, dairy and meat-processing industries. Removes dirt, grease and organic residues of vegetable and animal origin. Its chlorine based antibacterial formula guarantees the removal of germs and bacteria.

**USE:** CIP plants, food, agricultural, dairy, meat-processing industries.

**DOSAGE:** CIP systems: dilute product at 2% in hot water. By hand or with pressure washer 1%.

EMULSI-ACID

Not-foaming acid descaler

Code: 1857  
Package: 1pcs x kg20  
EAN code: 8032680395079

Not-foaming acid detergent for removing limescale from CIP systems that require the use of a foamless descaler that does not leave residues. Specific for floors, milking plants, equipment and pipes. Easy to rinse, does not corrode stainless steel, chrome plating or ceramics. Excellent anti-rust properties.

**USE:** CIP plants, food, agricultural, dairy, meat-processing industries.

**DOSAGE:** 1 g per litre, depending on water hardness and degree of soiling. Manual use: 1%-3%.

SCHIUMATORE

Low pressure

LOW PRESSURE FOAMER - Two way with rinsing function. Creates a wet foam using the water network pressure.

Code: 0010  
Package: 1pcs  
EAN code: 8032680395451

High pressure

HIGH PRESSURE FOAMER - A detergent with rinsing function. Creates a compact foam using the compressor pressure.

Code: 0024  
Package: 1pcs  
EAN code: 8032680395468

## A wide-angle photograph of the New York City skyline at dusk. The Freedom Tower stands prominently in the center, its spire reaching into the dark blue sky. To its left, the United Nations Secretariat Building is illuminated with a warm, golden light. Other skyscrapers of varying heights and architectural styles are visible, their windows glowing with interior lights. The entire scene is reflected in the calm water of the harbor in the foreground, creating a symmetrical effect. The sky is a deep, clear blue, and the overall atmosphere is serene and majestic.

**Package:** 6pcs x ml1000  
**EAN code:** 8032680392672

Perfumed limescale-removing detergent. Its formula rapidly dissolves limescale, grease, soap residues, without leaving rings and leaving the surfaces brilliant. Leaves the rooms pleasantly scented and does not damage chrome plating. A 5 kg can provides 167 750-ml bottles of solution ready for use. A 1000 ml bottle provides 50 10-litre pails of washing solution.

**USE:** ideal for cleaning tiles, taps, wash basins, showers and all washable surfaces in the bathrooms and kitchens of hotels, restaurants, bars, canteens, offices, hospitals.

**DOSAGE:** 1 20-ml push for a 750 ml bottle. In case of obstinate scaling 2 doses.

← ACIDIC — NEUTRAL — BASIC →

WHAT ARE THEY:

Biological Enzymatic products are natural substances that can break the chemical bond of organic substances, eliminating grease and food residues from drains, pipes and degreasing tanks. In fact, food, grease and organic substance deposits clog kitchen drain pipes. Also, the grease deposits are source of bad odours. The biological products are eco-compatible and respect the environment compared to drain cleaning chemical products which can be harmful for the environment and only partially remove scales.

BIOTECHNOLOGY:

The selected non-pathogenic microorganisms contained in the product reproduce inside the drains, piping and degreasing tanks, feeding themselves of the residues and greases, thereby preventing clogs and ensuring proper drainage. Biological products do not pollute.

HOW DO THEY WORK:

Micro-organisms feed themselves on the grease in drains and pipes and reproduce themselves, thereby cleaning and removing deposits. They prevent the formation of deposits as they maintain the surface layer of grease in liquid state, thereby ensuring proper tank operation. Regular use of these products creates an active Bio-film on the treated surfaces, which prevents the formation and accumulation of deposits.

DEODORANTS:

Odours are caused by decomposing organic substances and micro-organisms. By feeding themselves of grease and decomposed micro-organisms, Biological products eliminate bad odours by eliminating their cause.

BIO BACT SCARICHI

Liquid

Liquid biological activator for the treatment and degreasing of drains, pipes, septic tanks. Removes even the toughest scale deposits, prevents pipe clogging and bad odours. When treating degreasing tanks use the automatic dosing units. Not harmful for the environment.

**USE:** drains, degreasing tanks, pipes, sanitary plumbing in restaurants, hotels, bars, canteens, schools, hospitals, nursing homes.  
**DOSAGE:** 1 ml every meal – 100 ml every drain.

**Code:** 2410  
**Package:** 2pcs x kg5  
**EAN code:** 8032680392535

DOSATORE TEMPORIZZATO

For Enzyme solutions

Automatically dispenses Biological Enzymatic products in the drains every day and always at the same.

**Code:** 0017  
**Package:** 1pcs

BIO BACT SCARICHI

Dust

Powder biological activator for the treatment and degreasing of drains, pipes, septic tanks. Removes even the toughest scale deposits, prevents pipe clogging and bad odours. When treating degreasing tanks use the automatic dosing units. Not harmful for the environment.

**USE:** drains, degreasing tanks, pipes, sanitary plumbing in restaurants, hotels, bars, canteens, schools, hospitals, nursing homes.  
**DOSAGE:** 1-3 sachets every week.

**Code:** 2415  
**Package:** 25pcs x 200g  
**EAN code:** 8032680392955

**OUR FUTURE is  
ECOLABEL**

**APRIL 2014**

**SWIMMING POOLS**

DI-CLORO 56% **NEW**

Fast dissolving powder

Code: 2607  
Package: 1xkg25  
EAN code: 8032680390463  
Code: 2613  
Package: 1xkg5  
EAN code: 8032680393754

The product is in granular form for easy and precise use and dosage with automatic systems and for manual treatment. Contains stabilising agents to reduce consumption. It has little effect on the pH when dissolved in water and limits, therefore, the need for pH correctors. With a high content of available chlorine (56% minimum guaranteed) it can be stored for a long time.

**DOSAGE:** 1-2g/m³ daily. Impact action: 10g/m³.

TRI-CLORO 90% **NEW**

125 tabs

Code: 2606  
Package: 1xkg25  
EAN code: 8032680390456  
Code: 2610  
Package: 1xkg5  
EAN code: 8032680393723

The 200g tablets ensure simple and precise use and dosage for automatic and manual systems and skimmers. It is to be used manually for skimmers. It contains stabilising agents for minimal consumption. After dissolving in water, it has a slightly acid reaction that does not have any particular effect on the pH, avoiding or reducing the use of pH correctors. Product with the best cost/performance ratio. With a high content of available chlorine, 90% minimum, it can be stored for a long time.

**DOSAGE:** skimmer: 1 tablet. Metering device: fill the metering device and adjust the amount of dissolving water according to the amount of chlorine required by the legislation in force. 4 tablets/100m³/7 days.

FLOCCULANTE **NEW**

Acid fluid for the flocculation of swimming pool and industrial waters

Code: 2601  
Package: 1xkg20  
EAN code: 8032680390197  
Code: 2612  
Package: 2xkg5  
EAN code: 8032680393747

Acid fluid for the flocculation of swimming pool and industrial waters and for the clarification of potable water. It is a metal chloride-based fluid that can be mixed with water. It is suitable for use with sand filters. The product permits the fast sedimentation of organic and particle matter dispersed in swimming pool water and in the sedimentation tanks of purifiers in general.

**DOSAGE:** depending on the characteristics of the water to be treated and the dosing system used quantities may vary considerably as well as the results ottenuti. Manual dosing: 1-3g per m³.

ALGHICIDA **NEW**

Product suitable for the prevention and destruction of algae

Code: 2600  
Package: 1xkg20  
EAN code: 8032680396366  
Code: 2609  
Package: 2xkg5  
EAN code: 8032680393716

Product suitable for the prevention and destruction of algae. It is formulated to eliminate the problem at the source, guaranteeing an optimal standard of hygiene. It is effective against algae and also against various species of micro-organism.

**DOSAGE:** initial treatment: 30/50g/m³. Treatment to be performed depending on the extent of the phenomenon.

INNALZATORE pH **NEW**

pH increaser (pH+)

Code: 2602  
Package: 1xkg20  
EAN code: 8032680390203  
Code: 2611  
Package: 2xkg5  
EAN code: 8032680393730

High concentration alkaline pH increaser. For the precipitation treatment of metal ions. Can be used as a detergent for cleaning the arm collectors of filtration systems. Recommended for water with low alkaline salt content.

**DOSAGE:** inject the dose determined to achieve the desired pH directly in the piping system filtration during opening hours.

RIDUTTORE DI pH **NEW**

pH increaser (pH-)

Code: 2603  
Package: 1xkg20  
EAN code: 8032680390210  
Code: 2608  
Package: 2xkg5  
EAN code: 8032680393709

Chloride-free acid pH corrector for lowering the pH of swimming pool water when this reaches too high a pH for swimming and for efficient operation of the system. Keeps the pH within the optimal range for chloride and can control limescale. Does not contain harmful substances. It is highly effective, guaranteeing the low consumption and, therefore, the lower running costs of the system.

**DOSAGE:** dosage handbook: pour directly from the container in the tub or in the pool of compensation (if any).

SVERNANTE **NEW**

Product for the winterization of water

Code: 2605  
Package: 1xkg20  
EAN code: 8032680390388

Product for the winterization of water in swimming pools. Prevents microbial proliferation and reduces the formation/decomposition of algae. Contains sequestrants that prevent the build-up of limescale on surfaces. Quick and easy to use.

**DOSAGE:** pour directly into the tub 70-90g / m³.

PULIRAPIDO

With Hydrochloric Acid and rust

Code: 1970  
Package: 2pcs x kg5  
EAN code: 8032680391804

Antibacterial acid-based universal descaler, highly effective against all types of scaling. Particularly indicated for removing limescale, grease, soap, rust and the silicon residues left by thermal waters.

**USE:** swimming pools, bathrooms, showers, boilers, radiators.

**DOSAGE:** dilute the product at 2%-4% depending on the degree of soiling, let work for no more than 3 minutes and then rinse with water.

SGRASSATORE ULTRA  
For large surfaces  
Marseilles

Code: 1809  
Package: 2pcs x kg5  
EAN code: 8032680391354

Lemon

Code: 1801  
Package: 2pcs x kg5  
EAN code: 8032680391385

High-concentration alkaline degreaser. Removes grease, oil and burned residues. Powerful against any kind of dirt on all surfaces. Ideal for the catering sector, industries, workshops, offices, warehouses, hospitals, the nautical sector. Do not use on aluminium.

**USE:** floors, garages, external surfaces, workshops, work surfaces, all cooking-related sectors.  
**DOSAGE:** 0.5%-1% approx. ½ cap for every 5 litres of water. No rinsing required.

NEW  
BAKTERIO

P.M.C 15446 - Scented

Code: 1541  
Package: 2pcs x kg5  
EAN code: 8032680392726  
Code: 1544  
Package: 2pcs x kg5  
EAN code: 8032680393921

Medical and Surgical:  
Registration at the Ministry of Health  
No. 15446

Disinfectant - Detergent -  
Deodorant. Scented disinfectant  
germicide, to based on  
quaternary ammonium salts,  
such extensive and penetrating  
bactericidal activity with a strong  
deodorant and detergent.  
Delete rapidly from all surfaces  
fungi, bacteria and mold.

**USE:** food industry, butcher shops,  
restaurants, bars, hotels, schools,  
hospitals and communities.  
**DOSAGE:** 1-3%. 1-2 plugs per 5  
liters of water.

MULTI ACTIV

Odourless sterilising detergent with 2 Antibacterials

Code: 1821S  
Package: 6pcs x ml750  
EAN code: 8032680391446

Ready for use alcoholic odourless  
sterilising degreaser. The exclusive  
formula with 2 antibacterial active  
ingredients, Salt of Quaternary  
Ammonium and Diclosan, guaran-  
tees the removal of germs, bacte-  
ria and bad odours. The presence  
of 2 antibacterial main ingredients  
prevent the resistance of bacteria,  
therefore does not require the use  
of more detergents. Suitable for all  
surfaces in contact with food.

**USE:** in the kitchen: chopping  
boards, slicers, knives, work sur-  
faces, cold storage units, meat  
mincer, thermos food holder.  
**DOSE:** ready for use.

MOTOR-VEHICLES  
WASHING

CAR WASH

Detergent with polish for car washes

Concentrated alkaline liquid detergent with polish for cleaning motor vehicles in self-service car washes or using a pressure washer. Rapidly removes any type of grease and dirt from the bodywork of all vehicles, lorries and motorcycles and from tarpaulins without damaging the surfaces.

**USE:** self-service stations, with pressure washer, traditional systems.  
**DOSAGE:** pre-wash with atomizer 1 litre of detergent in 30-80 litres of water. Automatic pre-wash in tunnel or with pressure washer 20-30 ml per car.

**Code:** 2210  
**Package:** 1pcs x kg20  
**EAN code:** 8032680391736

PRE WASH

Pre-wash

Concentrated alkaline liquid detergent for pre-washing motor vehicles in traditional car washes, self-service car washes or with pressure washer. Highly effective for removing oil, grease and mides from the bodywork of vehicles and lorries and from tarpaulins without damaging the surfaces.

**USE:** pre-treatment in traditional car washes, self-service stations or with pressure washer.  
**DOSAGE:** self-service station 10-20 ml per wash cycle. With pressure washer 20-25 ml per car. Traditional car washes: 0.5%-1%.

**Code:** 2215  
**Package:** 1pcs x kg20  
**EAN code:** 8032680392542

CRUSCOTTO VIVO

Antistatic Cleaner Dashboards

Prodotto ravvivante e protettivo per il trattamento dei cruscotti. Garantisce una spettacolare lucentezza delle parti trattate con effetto antistatico senza lasciare aloni. Particolarmente indicato anche per inserti in radica e carbonio. La sua particolare fragranza elimina i cattivi odori di fumo, deodorando persistentemente.

**IMPIEGO:** nebulizzare su cruscotti ed inserti delle auto.  
**DOSAGGIO:** pronto all'uso.

**Code:** 2231S  
**Package:** 6pcs x ml750  
**EAN code:** 8032680397875

SHAMPOO AUTO

With Polish

Concentrated neutral pH detergent for hand washing motor vehicles. Delicately dissolves dirt without damaging the paintwork. Thanks to its formula containing a polishing agent, leaves the surfaces looking brilliant, with no rings and a pleasant fragrance.

**USE:** motor vehicles, motorcycles, camper vans, lorries and trucks.  
**DOSAGE:** 2%-4% approx. 1 cap for every 5 litres of water.

**Code:** 2270  
**Package:** 2pcs x kg5  
**EAN code:** 8032680391781

CERAUTO

Hydrobrigh

Concentrated liquid wax for automatic service stations. Creates a water-repellent film that prevents the forming of rings and facilitates drying. Effectively protects the bodywork and heightens the brightness of the paintwork.

**USE:** automatic or manual service stations.  
**DOSAGE:** electronic plants 10-15 ml of wax per car. In car washes with different aspiration systems, dilute 1 part of product in 20 parts of water.

**Code:** 2220  
**Package:** 1pcs x kg20  
**EAN code:** 8032680391743

BRILL PNEUMATIC

Tyre Blackener

Concentrated polishing and brightening liquid detergent for tyres, mats, plastic profiles and rubber in general. Confers brilliance, softens rubber, prevents cracking and reduces the wear of tyres without leaving coloured residues on the rims.

**USE:** Tyres, mats, plastic profiles and rubber in general.  
**DOSAGE:** 1 part of product with 3-4 parts of water.

**Code:** 2240  
**Package:** 2pcs x kg6  
**EAN code:** 8032680398087

H.A.C.C.P.

H.a.c.c.p. (Hazard Analysis Critical Control Point)

It is a self-control system which every operator in food production sector must execute in order to evaluate and estimate hazards and risks and establish the control measures to prevent hygiene and sanitary problems from occurring.

MAIN CHARACTERS

The H.A.C.C.P. system arises from the need to guarantee the healthiness in food preparation.

The self-control system aims at evaluating the risks which can influence the food safety during every production phase, thereby activating preventive measures.

European Directive 43/93/EEC “food product hygiene”, implemented in Italy with Legislative Decree dated 26 May 1997 n. 155 and subsequently replaced by regulation 852/2004, has extended the obligation to pre-arrange a self-control program to all industrial, craft and commercial activity regarding food, and has also indicated the system based on the HACCP methodology (hazard analysis critical control point) to which the identification of the potential hazards, the evaluation of the seriousness and the probability of their occurrence, as well as the identification and application of the control procedures of the critical points, is entrusted.

The principles of the H.A.C.C.P. system

The principles on which the H.A.C.C.P. plan (Hazard Analysis Critical Control Points) is based, are the following:

- analysis of the potential microbiological risks for food;
- identification of the points where risks for foods may occur;
- decisions to be taken regarding the identified microbiological critical points, meaning those points which can harm the safety of the products;
- identification and application of the control procedures and surveillance of the critical points;
- periodic re-examination, and in occasion of variation of every process and type of activity, of risk analysis, critical points and control and surveillance procedures.

PROPER CLEANING AND DISINFECTION

**GROSS RESIDUES REMOVAL:** remove food residues from shelves and work surfaces using scraping brushes, brooms or wet mop.

**CLEANSING:** remove dirt from the surfaces with a mechanical action using sponges or brooms with detergents or cleansers with the following features:

- detergent even with low concentration
- that can dissolve dirt and emulsify fats
- also effective in hard waters
- containing sequestrants that can prevent the formation of limescale (precipitation of calcium and magnesium salts).
- not aggressive
- easy to rinse, does not leave odours or residues

**DISINFECTION:** it is the last phase of the cleaning operation and aims at destroying germs, bacteria, fungi and other micro-organisms from equipment and work surfaces in contact with foods.

Disinfect using water vapour or chemical products with the following features:

- Broad spectrum of activity against as many micro-organisms as possible
- Destroy the micro-organisms in a short time
- Be active at low temperatures and over a wide pH range
- Not leave odours or stains
- Have a low degree of tolerance to micro-organisms
- Not corrode metals or ruin surfaces

RECOMMENDATIONS

Every cleansing phase must be followed by thorough rinsing with drinking water to prevent any contact between chemical substances and food. It is recommended to leave a written trace of daily and weekly inspections, cleaning and disinfections, keeping them at hand for possible inspections by the Controlling authority.

THE pH

pH measures the acidity or basicity of substances.

The pH measure scale ranges from 0 up to 14. Substances with a pH lower than 7 are considered acidic, those with a pH equal to 7 are considered neutral and those with a pH higher than 7 are considered basic. Concentrated acidic or basic substances are corrosive and dangerous.

Products with a pH lower than 7 easily dissolve lime deposits, whereas products with a pH higher than 7 promote fat solubilisation.

The pH indications in this catalogue are merely indicative. Refer to the product safety card to know the official value.

pH ± 0.5 TOLERANCE
